05/11/2026	96	ORDER: Denying as moot 93 "Emergency Motion..." No defendant has answered the complaint or filed a motion for summary judgment. Thus, pursuant to Fed. R. Civ. P. 41(1)(1)(A)(i), the case may be voluntarily dismissed by the plaintiff without a court order. And that that is precisely what the Trustee has done. See, Docket No. 94. In this light, Schiff's motion is moot. Furthermore, Schiff did not file any counterclaim or crossclaim and the other parties did not ask the court to retain jurisdiction to enforce any agreement they may have reached. In consequence, there is no legal basis for the "judicial scrutiny" that Schiff requests insofar as this particular case is concerned. Signed by Judge Pedro A. Delgado-Hernandez on 05/11/2026.
